PROFILE SUMMARY

- Computer Engineering undergraduate with hands-on experience in AWS Cloud services (EC2, S3, VPC, IAM, Lambda) and Linux system administration.
- Strong foundation in cloud infrastructure, server administration, and automation, with training in Red Hat technologies (RHCSA, RHCE) and Ansible.
- Passionate about cloud computing, scalable infrastructure design, and applying AWS services to build and deploy real-world solutions.

WORK EXPERIENCE

IRT Technologies and Solutions — AWS Cloud Intern

March 2026 – Present

Nashik, Maharashtra

- Gained hands-on experience with core AWS services, including EC2, S3, VPC, and IAM, for building and managing cloud infrastructure.
- Built serverless applications using AWS Lambda as part of an ongoing project.
- Completed hands-on Linux administration training covering RHCSA and RHCE concepts.
- Applied infrastructure automation using Ansible for configuration management and deployment tasks.

Datamatics — Part-Time Associate (Exam Proctoring)

April 2026 – Present

- Ensured examination protocol compliance and candidate verification during large-scale assessments.

PROJECTS

Forex Market Sentiment Analysis (Major Project)

- Working on a sentiment analysis system that analyzes financial news to gauge its impact on forex market trends, using Python-based NLP techniques.
- Integrating AWS Lambda to deploy the analysis pipeline in a serverless environment.

Mini Projects

- Event Announcement System — Serverless event notification system (S3, SNS, Lambda, API Gateway) with email subscription and real-time alerts.
- Automated CSV Data Pipeline — Serverless ETL pipeline (S3, AWS Glue) cleaning uploaded CSVs, visualized via Amazon QuickSight.
- Receipt Processing Automation — Extracted receipt data using Amazon Textract, stored in DynamoDB, and emailed summaries via Amazon SES.
- Cloud Dictionary Application — Serverless search app (AWS Amplify, Lambda, DynamoDB) fetching cloud computing term definitions.
- Two-Tier Web Application — Deployed a scalable two-tier architecture using EC2, Amazon RDS (MySQL), and an Application Load Balancer.

SKILLS

- Cloud (AWS): EC2, S3, VPC, IAM, Lambda, and other core AWS services
- Linux & Systems Administration: Red Hat RHCSA, RHCE
- Automation & DevOps: Ansible, Git, GitHub
- Programming: Python, C, C++
- Networking: TCP/IP, DNS, VPN, Basic Network Administration

EDUCATION

Gokhale Education Society's R.H. Sapat College of Engineering, Nashik

July 2023 – May 2027

Bachelor of Engineering — Computer Engineering | CGPA: 7.54 (till 3rd Year)

CERTIFICATIONS / EXTRACURRICULAR

- Red Hat Certified System Administrator (RHCSA) & Red Hat Certified Engineer (RHCE) — training completed at IRT Technologies and Solutions
- Linux Foundation — Linux Certification
- IBM — Introduction to Cloud Computing
