EDUCATION

B.E. Computer Engineering — CGPA: 7.7/10 (Till Semester VI)

2023–2027

GESCOE, Nashik — Savitribai Phule Pune University, Maharashtra

SKILLS

Programming	Python, Bash, SQL
Backend	FastAPI, Flask, REST APIs, SQLAlchemy
Computer Science	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Cloud & DevOps	AWS (EC2, EKS, Lambda, RDS, S3, IAM), Docker, Kubernetes, Terraform
Databases	PostgreSQL, MySQL, SQLite
Tools	Git, GitHub, Linux (Ubuntu), GitHub Actions, Jenkins, Argo CD
Machine Learning	scikit-learn, HuggingFace APIs, NLP, PyTorch
Languages	English, Hindi, Marathi

PROJECTS

DevOps E-commerce Deployment Platform

May 2025

Tech: Docker, Kubernetes (EKS), Terraform, GitHub Actions, Argo CD, AWS

[GitHub](#)

- Deployed containerized backend services on **AWS EKS** using automated **GitHub Actions** and **Argo CD** GitOps pipelines, replacing manual deployment steps.
- Provisioned AWS infrastructure (VPC, EKS, ALB, RDS) using 6+ reusable **Terraform** modules.
- Implemented automated rollback on failed health checks, eliminating manual recovery during testing.

AgroIntel AI — Smart Agriculture Platform

April 2026

Tech: Python, FastAPI, scikit-learn, Next.js, HuggingFace API

[GitHub](#) — [Live App](#) — [Medium](#)

- Built and deployed a full-stack AI agriculture platform serving crop recommendation and disease detection through **FastAPI** REST APIs.
- Trained and evaluated ML models achieving **99.3% accuracy** using Random Forest
- Integrated **HuggingFace Vision API** for real-time crop disease prediction, deployed via **Next.js** live app
- Designed modular ML pipelines separating training, inference, and deployment, cutting model iteration time by reusing preprocessing across 3 model versions.

AWS Lambda — Cloud Cost Optimization

Nov 2025

Tech: AWS Lambda, Python (Boto3), CloudWatch, SNS, IAM

[GitHub](#) — [Medium](#)

- Automated detection and deletion of stale **EBS snapshots** via **AWS Lambda** and **Boto3**, eliminating manual cleanup and cutting related storage cost by an estimated 20–30%.
- Scheduled daily executions with **CloudWatch Events** and integrated **SNS** alerts, achieving zero-touch monitoring with real-time notification on every deletion run.
- Secured automation using least-privilege **IAM** policies scoped to snapshot-only actions, eliminating risk.

CERTIFICATIONS & ACHIEVEMENTS

- **GATE 2026 Qualified – Computer Science & Information Technology**
- **NPTEL Elite — Cloud Computing (IIT Kharagpur) 2025**
- **Solved 100+ DSA problems (NeetCode 250 roadmap)**
