EDUCATION

R. H. Sapat College of Engineering, Nashik — *B.E. in Computer Engineering*

Aug 2023 – Present

- CGPA: 9.29 / 10 (Till VI Semester)

PROJECTS

Farm Management System

- Developed a web-based Farm Management System to simplify crop management, expense tracking, and financial record management for farmers.
- Implemented secure user authentication, crop management, expense management, financial reports, and role-based access for Admin and Farmer.
- Technologies Used: **Python, Flask, SQLite, SQLAlchemy, HTML, CSS, JavaScript, Git, GitHub**

Image Search Engine

- Built a responsive Image Search Engine using HTML, CSS, and JavaScript.
- Integrated the Unsplash API to fetch and display high-quality images dynamically based on user search queries.
- Implemented responsive UI, asynchronous API calls, and dynamic rendering to improve user experience.
- Technologies Used: **HTML, CSS, JavaScript, Unsplash API**

Snake and Ladder(Using BFS)

- Developed a C++ based Snake and Ladder simulation using Breadth First Search (BFS) algorithm.
- Implemented graph traversal to calculate the minimum number of dice throws to reach the destination.
- Strengthened understanding of shortest path algorithms and adjacency list representation.
- Build Using : C++, **Graphs (BFS)**

TECHNICAL SKILLS

Programming Languages	C, C++, Core Java, Python, JavaScript
Web Technologies	HTML5, CSS3, JavaScript
Databases	MySQL, PostgreSQL, SQLAlchemy, SQLite
Developer Tools	Git, GitHub, VS Code
Core CS	Data Structures & Algorithms, OOP, DBMS, Operating Systems

ACHIEVEMENTS

- Solved **900+ Data Structures & Algorithms problems** across leading coding platforms including **LeetCode, GeeksforGeeks, CodeChef, Codeforces, and HackerRank**.
- Won multiple **college-level coding competitions** in **C Programming** and **C++**, demonstrating strong problem-solving and algorithmic thinking.
- Served as the **President of ACES** and **CEO of the Coding Ninjas 10X Club**, leading the planning and execution of technical events, coding contests, workshops, and hackathons.
- Invited as a **Speaker** to conduct sessions on **Competitive Programming** and **Data Structures & Algorithms**, mentoring students on problem-solving strategies and placement preparation.
- Participated in multiple **hackathons**, contributing to software development projects as both a **Team Lead** and a **Team Member**.
